MANAGER COMMENTARY

Central Bureau Statistics of Indonesia (BPS) announced inflation in Feb 2015 at -0.36% mom (vs consensus 0.18%, inflation -0.24% in Jan 2015). Lower CPI was driven by price reduction in raw foods, tobacco and transportation costs. On yearly basis, inflation printed at 6.29% YoY (vs consensus 6.70%, 6.96% in Jan 2015). Core inflation printed at 4.96% YoY (vs consensus 5.00%, 4.99% in Jan 2015). In the Board of Governors' Meeting on Feb 17th, 2015, Bank Indonesia cut 25bps its reference rate to 7.50%, maintained Lending Facility at 8.0%, and cut the deposit facility rate (FASBI) to 5.50%. The JII (Jakarta Islamic Index) ended higher in February at 722.10, rising +2.18% MoM. Large cap stocks such as UNTR, TLKM, MNCN, INTP, and BSDE contributed to the MoM gain, all of which rose by +15.92%, +3.71%, +10.14%, +4.57%, and +9.90% MoM respectively. Positive sentiment continued to support Indonesian stock market. Foreign investors recorded net purchases of US\$ 830.38mn in this month. 2015 govt. budget was approved by Parliament in a timely manner suggesting that the tender process for government projects could started in March. This is much faster compared to last year which began in July-August. On the monetary front, -0.24% MoM deflation was recorded in January which made BI cut its benchmark interest rate by 25bps to 7.5%, suggesting a pro-growth measure and provided support sentimentally towards the market. On the other hand, import trend is expected to be higher due to the importation of heavy equipments to accommodate for the infrastructure projects which could put pressure towards Indonesia's CAD. Sector wise, the Trading and Distribution Sector was the best performing sector this month, appreciating by +7.13% MoM. UNTR (United Tractor) and MNCN (Media Nusantara) were the movers; rising by +15.92% and +10.14% MoM respectively. This was followed by the Property and Construction Sector that posted +3.39% MoM gains, driven by BSDE (Bumi Serpong Damai) and SMRA (Summarecon Agung) which saw +9.90% and +10.00% MoM gains respectively. On the other hand, the Consumer Sector was the worst performing this month which fell -2.27% MoM, the laggards were KLBFI (Kalbe Farma) and INDF (Indofood) which fell by -3.22%, and -1.99% MoM respectively.

We remain selective on stocks that have better risk/reward in a situation where market valuation looks relatively rich.
