The JCI (Jakarta Index) closed higher in June, gaining +4.58% MoM to close at 5,016.65 for the month. movers were ASII, TLKM, UNVR, BMRI, and BBRI which rose +12.12%, +7.57%, +4.58%, +5.54%, and +4.35% MoM respectively. Meanwhile the laggards were PGAS, ISAT, MLBI, VIVA, and JSMR which fell -5.65%, -3.04%, -3.91%, -15.22%, and -2.31% MoM respectively. Index reached its highest level this year after the parliament passed the tax amnesty law on 28th June. Initially, investors were pessimistic as the tax amnesty progress was very slow initially, suggesting that the probability of delay on tax amnesty approval became relatively higher. Externally, Brexit and EU disintegration fears also increases the risk of weakening currency and capital outflow in emerging market, despite Indonesia's direct exposure to the UK is not significant, it could adversely impact financial/currency markets. However, on the positive side, the passing of the tax amnesty bill has offset the external fear factor, for now. Improvements in growth outlook are key to keeping the positive sentiment intact. Additionally, the implementation of tax amnesty law and lower BI rate by 25bps will potentially improve purchasing power, especially in the middle and middle-upper income segments. Bottom line, the growth outlook will improve and 3Q16 could mark an upward revision in earnings growth. Sector wise, the Mining Sector was the best performing sector this month, rising by +9.57% MoM. DOID (Delta Dunia) and PSAB (J Resources) were the movers; gaining by +65.54% and +50.00% MoM respectively. This was followed by the Miscellaneous Industry Sector that posted +9.50% MoM gains, driven by GJTL (Gajah Tunggal) and ASII (Astra International) which rose +37.32% and +12.12% MoM respectively.
